

A WATTS Brand

2B5 Series

Elvari™ Surface-Mounted Combination Unit

Key Features

- High quality and modern style complements other [Elvari™ products](#)
- Advanced weld construction
- Pill-shape design
- Bag retention ring included
- Concealed BradLock™ magnetic locking system

Operation

Towel dispenser holds C-fold or multi-fold towels with integral, easy-feed towel guide liner. Red, low-level indicator provides notice that refill is needed. Waste receptacle is removable for servicing by lifting the bag retention ring/handle. BradLock system and magnetic key on the towel dispenser provide security, a seamless design, and easy access for service. Magnetic lock location is hidden from view behind the Bradley logo.

Capacity

Small Capacity

- Towel Dispenser: Approximately 400 folded paper towels
- Waste Receptacle: 10 gallon

Medium Capacity

- Towel Dispenser: Approximately 500 folded paper towels
- Waste Receptacle: 14 gallon

Large Capacity

- Towel Dispenser: Approximately 800 folded paper towels
- Waste Receptacle: 18 gallon

Guide Specification

Surface-mounted towel and waste receptacle combination unit. High quality and style. 20-gauge, 300 series stainless steel in a brushed #3 satin finish or optional electrocoat finishes. Welded, pill-shape construction. Bag retention ring holds liners in place and can serve as a handle. 20-gauge stainless steel connecting plate protects walls and makes cleaning easier.

Overall Dimensions – Small Capacity:

2B5 Series Elvari™ Surface-Mounted Combination Unit

Optional Electrocoat Finishes

Bradley offers an exclusive, proprietary electrocoat color process on the Elvari combination unit models. Unlike powder coating, color is applied to the entire stainless steel part using a submersion process with electrically charged particles. This process results in a precise film thickness across all surfaces, allowing the grain of the stainless steel to show through.

Electrocoat provides complete coverage to the part and has environmental advantages such as no or low-VOC and HAPs (Hazardous Air Pollutants), heavy metal-free products, and minimum waste discharge. Bradley's electrocoat is durable and easy to clean as well as fingerprint, stain and corrosion resistant. A UV light stabilizer additive enhances resistance to weathering and color fade. Products are performance tested for adhesion following ASTM D3359-22 and impact resistance following ASTM D2794.
