

A WATTS Brand

7B2 Series Elvari™ Surface-Mounted Shelf

Key Features

- High quality and modern style complements other [Elvari™ products](#)
- Single-piece design for easy mounting
- Advanced welding construction of front and sides
- Optional hooks for personal items, two per shelf
- Radiused sides for a softer design

Guide Specification

Top and back of surface-mounted shelf shall be fabricated of 20-gauge, 300 series stainless steel in a brushed #3 satin finish and has an integral back mounting plate. Front and sides shall be fabricated of 18-gauge, 300 series stainless steel in a brushed #3 satin finish. All exposed surfaces in architectural satin finish. Optional hooks for holding personal items are available. Hooks mount between the wall and back of shelf and are constructed of 20-gauge, 300 series stainless steel in a brushed #3 satin finish or optional electrocoat finishes.

A WATTS Brand

7B2 Series Elvari™ Surface-Mounted Shelf

Optional Electrocoat Finishes

Bradley offers an exclusive, proprietary electrocoat color process on the Elvari shelf models. Unlike powder coating, color is applied to the entire stainless steel part using a submersion process with electrically charged particles. This process results in a precise film thickness across all surfaces, allowing the grain of the stainless steel to show through.

Electrocoat provides complete coverage to the part and has environmental advantages such as no or low-VOC and HAPs (Hazardous Air Pollutants), heavy metal-free products, and minimum waste discharge. Bradley's electrocoat is durable and easy to clean as well as fingerprint, stain and corrosion resistant. A UV light stabilizer additive enhances resistance to weathering and color fade. Products are performance tested for adhesion following ASTM D3359-22 and impact resistance following ASTM D2794.
