

Make the Switch Today

Update Model A or Airmax hand dryers easily with this conversion kit

Upgrade to quieter, cleaner, more sustainable hand dryers! Replace your inefficient, discontinued recessed Model A or Airmax hand dryers with high-speed HEPA-filtered VERDEdri® using our Retrofit Conversion Kit.

Retrofit Conversion Kit with Wall Guard

Why Upgrade to VERDEdri?

The conversion kit:

- Provides attractive wall guard
- No changes to electrical wiring
- No changes to wall structure
- Has same mounted height as previous dryer

HYGIENIC
Features HEPA filtration, antimicrobial technologies, and touchless operation for confident hand drying

ADA COMPLIANT
Surface-mount installation and compact design ensures compliance for walkways and pathways

ENERGY EFFICIENT
Optimized technology dries hands in as little as 12 seconds and uses only 3.16 watt-hrs per use

RELIABLE PERFORMANCE
Motor lasts up to 3 times longer than the competition

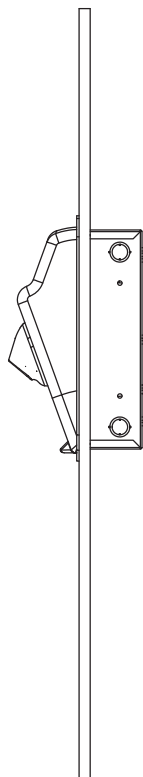

REFINED ACOUSTICS
30% quieter operation means less disturbance to adjacent areas

UNIVERSAL VOLTAGE
Accepts 110-277 VAC input for reduced shelf inventory

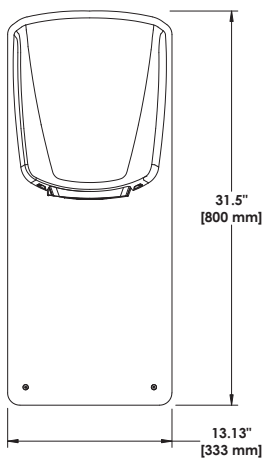

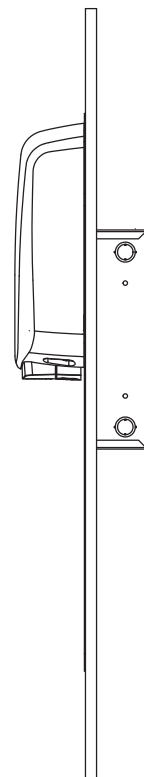

Kit includes all mounting hardware, and VERDEdri is a universal voltage product so conversion is easy.

Before, with Model A Dryer

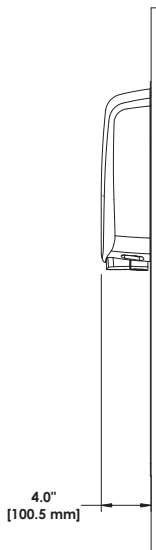

After, with VERDEdri

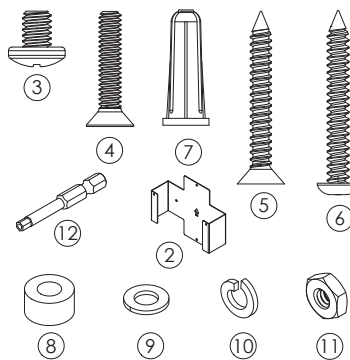

same mounting height above floor

Mounting hardware included.

Includes all hardware
