

# Sciaire Pro + HEPA

## PRISTINE AIR. JUST AS NATURE INTENDED.

Sciaire Pro + HEPA incorporates two different technologies for precise air purification. A PlasmaShield generator emits negative and positive ions to actively clean the air in the space. 2-in-1 HEPA filters and activated carbon filters remove particulate matter as small as 0.3 microns. They can also absorb harmful chemicals such as formaldehyde, smoke, volatile organic compounds (VOCs) and other harmful gases. This device is a comprehensive solution to clean air in large spaces.

### AUTO FUNCTION

PM2.5 sensor naturally adjusts fan speed depending on air quality.

### ELIMINATES 99.99% OF BACTERIA & VIRUSES

Ions react with viruses and bacteria in the air, neutralizing them and rendering them harmless.

### PROACTIVE DEODORIZATION

Eliminate unpleasant odors by oxidizing and neutralizing odor molecules with the help of oxygen ions, resulting in fresh and clean air.

### IONS BREAK DOWN VOCs

Ions attach to Volatile Organic Compounds (VOCs) breaking them down, making the air clean and better to breathe.

### PARTICLE CLUSTERING CLEAN AIR

Ions alter the charge of airborne particles causing them to cluster, become heavier and fall. This makes it easy for a filter to capture.

## SPECIFICATIONS

MODEL NUMBER	CAHP-180WH10CPRO
INPUT VOLTAGE	100-240 VAC 50/60 Hz
POWER CONSUMPTION	230 Watts
COMMUNICATIONS	Wi-Fi enabled   DH Lifelabs App
NOISE	43~59 dB
MATERIAL & FINISH	Glossy white, stainless steel accents
DIMENSIONS	36.50" x 23.66" x 14.57" (927 x 601 x 370 mm)
NET WEIGHT	67.68 lbs (30.7 kg)
AIRFLOW	665 CFM

SAFETY	Safety lock prevents accidental touch
INSTALLATION	No installation needed, easy plug and play
CADR	Smoke 665.15 CFM Dust 674.85 CFM Pollen 703.04 CFM
APPLICATIONS	Commercial buildings, education, health care, hospitality, retail
CERTIFICATION	UL, cUL, FCC, IC, EPA EST. NO 99117-CHN-1, UL2998 OZONE, CARB compliance
